

# LAUNCHTIME - ROCKET LAUNCH SCHEDULE

LaunchTime for iOS update is available on the App Store

GUILDFORD, UK - Thursday, 17 August 2017 - A new update is available today for LaunchTime. This update introduces new features, the option to filter launches by location, and hiding specific launches. Also, users can send us tips to help with the development of the app. The majority of the app has been refactored to make it more stable, faster, and to make it easier to implement new features in the future.

## Release notes:

### New

- Added Filter option for Launches list
- Added option to hide launch in the Launches list
- Added countdown for every launch
- Added Tip Jar, you can send us tips to help with the app development
- Enabled landscape orientation

### Improvements

- Moved notification switch to Launch Details view from Settings

### Fixes

- Fixed countdown label colour
- Fixed date format (shows 00:\* instead of 24:\*)

LaunchTime is available for free for iPhone. The update is available worldwide on the Apple App Store.
